# *A Greenway Vision*

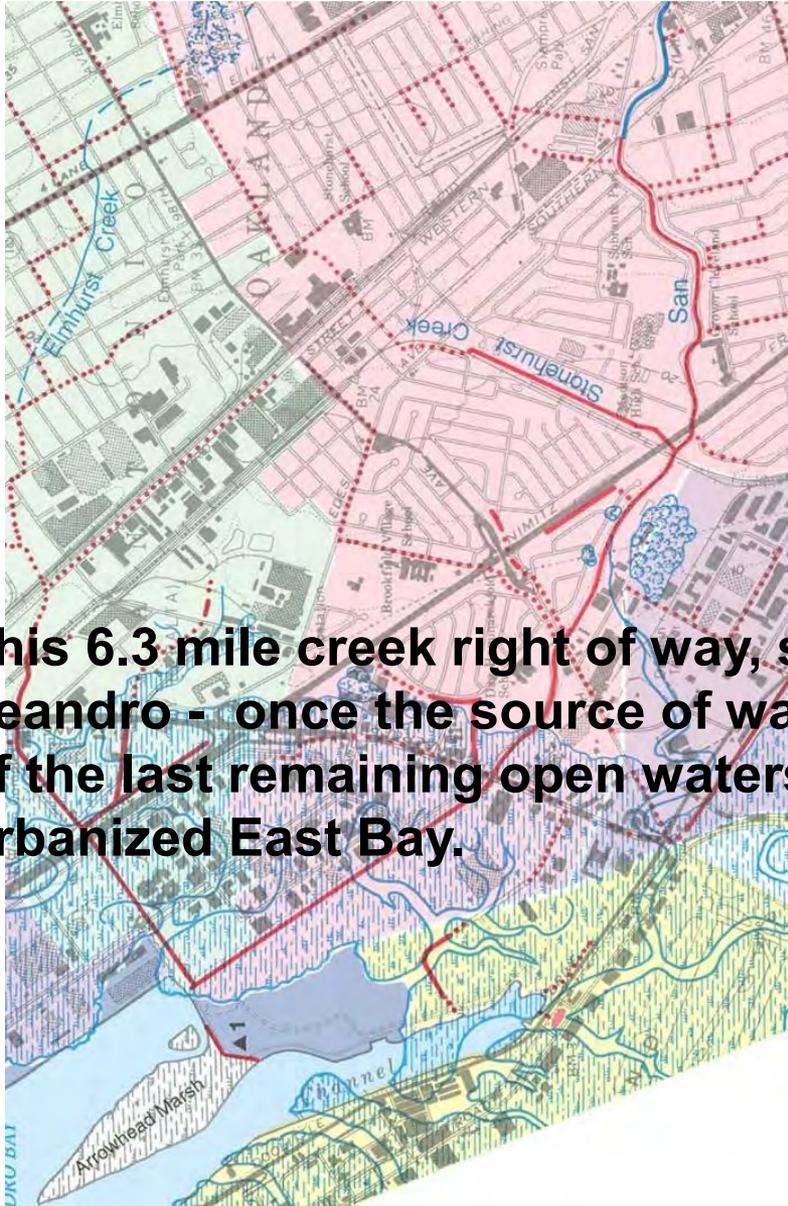

# The San Leandro Creek Watershed

April 2, 2011

**Stakeholders: Friends of San Leandro Creek, City of Oakland; City of San Leandro; EBRPD, BART, Merritt College, Alameda County Flood**

**This 6.3 mile creek right of way, shared by Oakland and San Leandro - once the source of water for these two cities - is one of the last remaining open watershed corridors in the heavily urbanized East Bay.**

# A Vision...

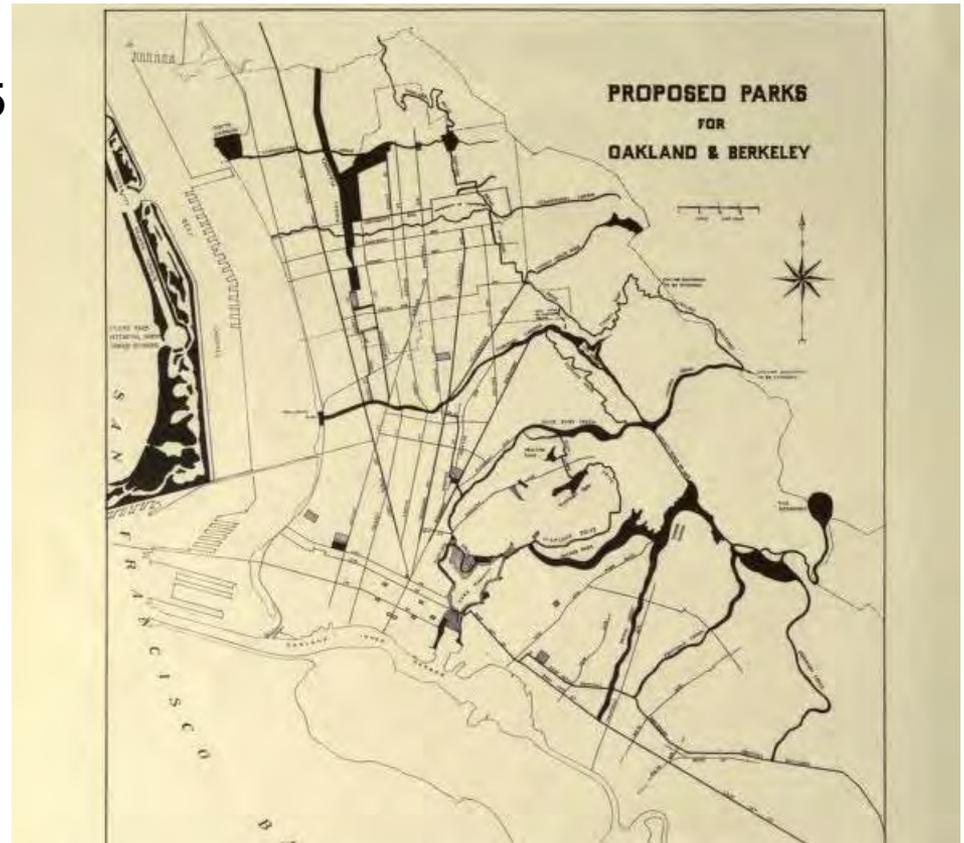

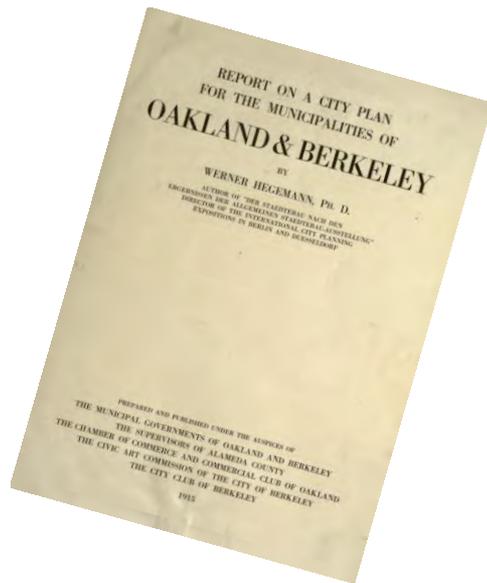

**Imagine:** “...A continuous trail accessible to bicycles, walkers and possibly equestrians... a trail that has stewards and rangers, interpretive signage, areas to rest and watch the creek... and a trail that has access to key neighborhood and community assets along its course...”

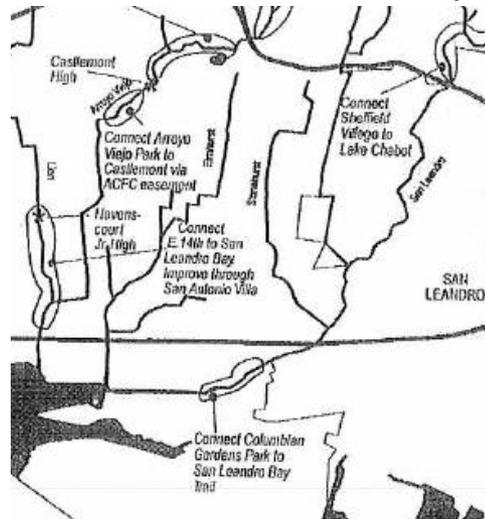

# ...Building on Previous Visions, Plans and Efforts for Linear Parks Connecting Neighborhoods, Local Businesses and Activity Centers

This vision is not new.

It has been rendered as early as 1915 in the Hegemann Plan for Oakland

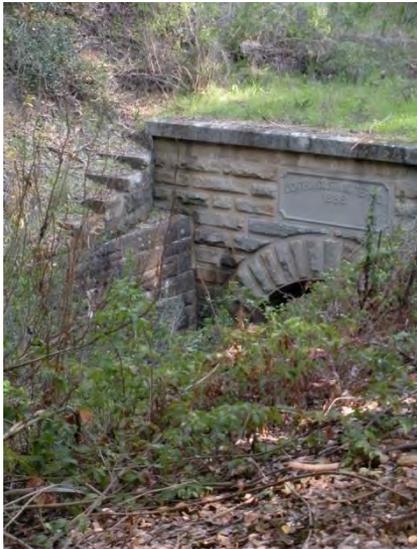

- The Creek as a Linear Park-Greenway was also highlighted in an Urban Design Plan for Oakland (1969) as part of a proposed “Open Space System” for the City (see San Leandro Creek at bottom of map to the right)
- The idea of a Restored Creek and Access Trail is also articulated in the 1998 **City of Oakland Open Space, Conservation and Recreation Element** and the 2002 **City of San Leandro’s General Plan Framework Map** (below)..

# MLK Regional Park/Arrowhead Marsh and SF Bay Trail...

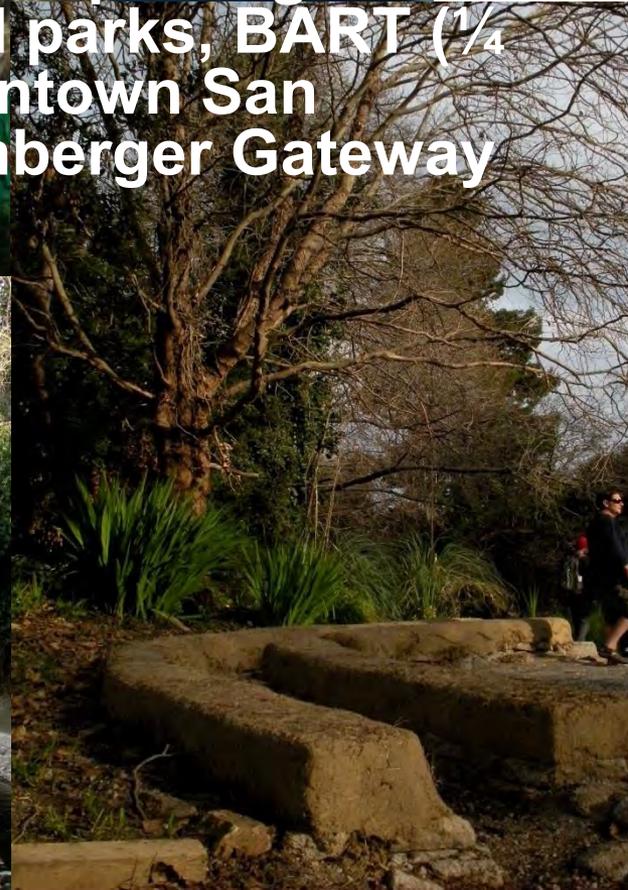

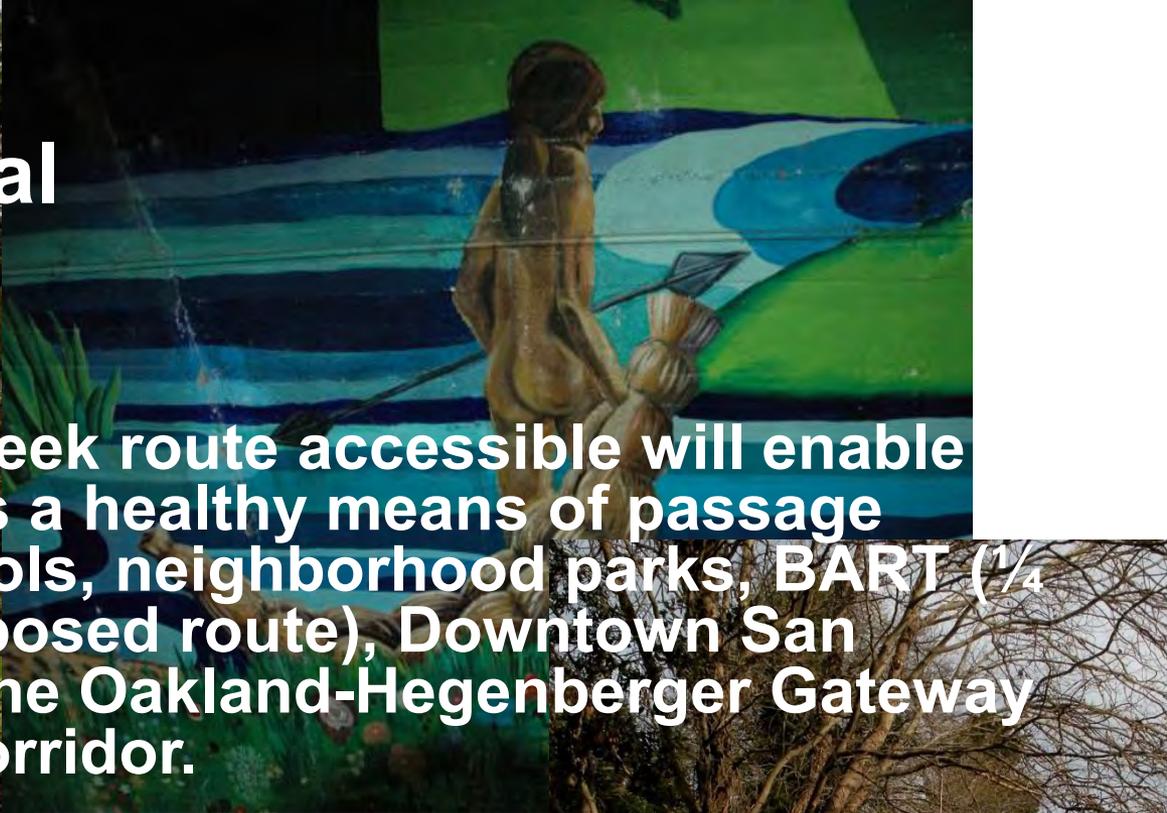

# ...Building on Local Engagement

Making this creek route accessible will enable local residents a healthy means of passage between schools, neighborhood parks, BART (1/4 mile from proposed route), Downtown San Leandro and the Oakland-Hegenberger Gateway commercial corridor.
