

HIRE **EQUITY** APPLICANTS!

The initiative is funded by the Governor's Office of Business and Economic Development and the City of Oakland.

WHY PARTICIPATE?

Skilled Interns

Secure an intern equipped with comprehensive knowledge of the cannabis industry! Our interns have completed an intensive 8-week academic training program at Merritt College, ensuring they possess an understanding of the industry.

Outsourced Onboarding

Free up your HR department from onboarding duties for your intern! All HR tasks, including payroll, worker's compensation, taxes, and more, are expertly managed with an external **Employer of Record (EOR)** on board.

Covered Wages

You won't have to worry about directly paying your intern's wages! Our EoR will compensate each intern at an approximate rate of \$21.28 per hour.
