### RECOMMENDATION

Staff recommends that the committee accept this informational report.

### **OUTCOME**

This is an informational report.

### BACKGROUND/LEGISLATIVE HISTORY

The City and Successor Agency's Portfolio composition includes safety, creditworthiness, liquidity, and diversity. As of March 31, 2013, the portfohos are in compliance with the Investment Policy of the City for Fiscal Year 2012-2013. The portfolios' credit quality remains high and well within Investment Policy parameters. Liquidity remains sufficient to meet projected cash flow needs for the next six months. Provided in the attached report are each portfolio's current market value and yield as of March 31, 2013, as well as comparisons to other market benchmarks. This report confirms that no leverage (use of debt to supplement investments) was utilized nor were derivatives (such as interest rate swaps, futures, or options) held during the reporting period. Also included are reviews of key economic factors which may affect the portfolio's potential investment results.

### **ANALYSIS**

### Cash Position

The City's Portfolio balances increased from \$442.25 million on December 31, 2012 to \$454.79 million as of March 31, 2013. This increase was mainly due to receipt of \$48.8 million in business tax revenues and \$13.3 million in property tax revenues offset by debt service nayments of approximately \$77 million and other operational payments.

Finance and Management Committee
May 28, 2013

The Successor Agency's portfolio increased from a balance of \$26.03 million as of December 31, 2012 to \$30.01 million as of March 31, 2013. Contributing to the portfolio increase was the receipt of \$26.5 million per the Recognized Obligation Payment Schedule ("ROPS") offset by debt service payments of \$14 million and other operational expenditures.

### Yield Comparison

The effective rate of return on total assets in the Operating Fund Portfolio for the month ending March 31, 2013 was 0.30%. The effective rate of return on total assets in the Successor Agency's Fund Portfolio for the month ending March 31, 2013 was 0.73%. The yields are different between the City and Successor Portfolios because currently the City portfolio is more focused on short term securities due to uncertainties in the amount claw backed by the State of California, while the Successor Portfolio has had a more stable long term horizon, thus it had been invested in some long-term high yielding securities. The Successor and City Portfolio outperformed their benchmark, the 1-year government agencies yield of 0.18% and the Successor and City Portfolio outperformed the yield on the Local Agency Investment Fund (LAIF) of 0.29%.

The performance comparison to LAIF must be considered in light of LAIF's historical tendency to lag market changes in both rising and falling interest rate environments. Moreover, the City does not actively sell securities in the portfolio to take advantage of cyclical swings in the market, which could result in the loss of principal. The primary investment objective of the City for the portfolio is to maximize safety, liquidity, and return in that respective order.

### PUBLIC OUTREACH/INTEREST

### COORDINATION

### **COST SUMMARY/IMPLICATIONS**

### SUSTAINABLE OPPORTUNITIES

Item:
Finance and Management Committee
May 28, 2013

Date: April 26, 2013

*Environmental*: To the extent that new investment opportunities are found in companies involved in environmentally positive activities, the City will invest in these companies (i.e. Commercial Paper, Medium Term Notes, etc.) if permitted by the City Investment Policy.

Social Equity: The City's policy is to invest, when possible, in companies that promote the use and production of renewable energy resources and any other types of socially responsible investments. Optimization of the portfolios, while observing those key areas, will not only produce interest earnings to the General Fund, but these monies may be available for services to disadvantaged areas, or enhanced recreational or social venues. Furthermore, the Treasury Division makes every effort to identify and purchase additional qualifying investments from renewable energy and other socially responsible companies.

### CITY OF OAKLAND AND OAKLAND SUCCESSOR CASH MANAGEMENT REPORT FOR THE QUARTER ENDED MARCH, 2013

### I. ECONOMIC REVIEW

### MARKET OVERVIEW

According to the U.S Department of Commerce, Real Gross Domestic Product- the output of goods and services produced by labor increased at an annual rate of 2.5% in the first quarter of 2013, which was up from the 0.4% growth in the fourth quarter of 2012. The U.S. Department of Commerce highlighted that the increase primarily reflected positive contributions from personal consumption expenditures, private inventory investment, exports, residential investment, and nonresidential fixed investments that were partly offset by negative contributions from federal government spending and state and local government spending.

The U.S. Labor Department reported the economy added only 88,000 jobs in March and the unemployment rate fell to 7.6% in March from 7.7% in February. According to the Labor Department, employers hired at the slowest pace in nearly a year, with steep jobs cuts in the retail and government sectors, including 12,000 jobs at the U.S Postal Service, while job growth continued in the health care, professional, business and construction sectors.

The Commerce Department reported that consumer spending, which accounts for about 70 % of U.S economic activity, grew at a 3.2 percent rate in the first quarter of 2013 compared to 1.8 percent in the fourth quarter of 2012, it was the strongest consumer spending in more that 2 years. The increase in spending came despite the return of 2 percent payroll tax and higher gasoline prices. Consumers boosted spending by putting less money in the bank. The saving rate dropped to 2.6 % in the first quarter, the lowest since the fourth quarter of 2007, from 4.7 % in the last three months of 2012.

Record low mortgage rates are increasing demand for housing, as the housing sector is restarting momentum. The U.S. Department of Commerce reported that the seasonally adjusted annual rate of new-home sales rose 1.5% to 417,000 in March from 411,000 in February. Home sales averaged a 424,000 annual rate in the first three months of this year, the strongest since the third quarter of 2008.

### **INTEREST RATES**

Inflation and unemployment continue to be the primary concern of the Federal Open Market Committee "FOMC". To support a stronger economic recovery, the Committee agreed to increase policy accommodation by purchasing additional agency mortgage-backed securities at a pace of \$40 billion per month and longer-term Treasury securities at a pace of \$45 billion per month.

The FOMC left the federal funds target rate unchanged at its January and March policy meetings, stating that the rate would remain in the exceptionally low range of 0 percent to 0.25 percent at least through late 2015. The FOMC also kept the rate it charges on direct loans to banks (i.e. the discount rate) steady at 0.75 percent.

### II. CITY OF OAKLAND

### PORTFOLIO REVIEW

The City's Portfolio balances increased from \$442.25 million on December 31, 2012 to \$454.79 million as of March 31, 2013. This increase was mainly due to receipt of \$48.8 million in business tax revenues and \$13.3 million in property tax revenues offset by debt service payments of approximately \$77 million and other operational payments.

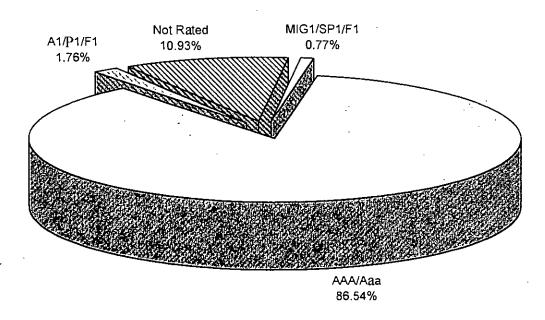

### PORTFOLIO COMPOSITION

The Portfolio continues to comply with all provisions of the City's adopted Investment Policy for Fiscal Year 2012-2013, including compliance with applicable local ordinances and resolutions such as Nuclear Free Zone, Linked Banking, and Tobacco Divestiture.

The following discussion addresses the City's investment portfolio characteristics in terms of the Investment Policy's four objectives: safety, liquidity, diversity and return. Portfolio detail for each month of the current quarter is attached to this report.

Preservation of Capital/Safety. In the chart below, the City's holdings are depicted by credit rating category as of March 31, 2013. Approximately 86.54% of Operating Fund investments were rated in the AAA/Aaa category while 10.93% primary unrated holdings represent the Fund's investments in the Local Agency Investment Fund ("LAIF"). The A1/P1/F1 category contained 1.76%. On August 6, 2011, the government agencies were downgraded by Standard and Poor's Rating Agency to AA+ from AAA. Moody's Investors' Service and Fitch Ratings continue to maintain AAA rating for government agencies. The City's Investment Policy for FY 2012-2013 does not have a rating criteria level for government agencies.

### City of Oakland Operating Fund Portfolio Credit Quality (As of 3/31/13)

<u>Liquidity.</u> Liquidity continues to be a primary objective when making investment decisions for the Operating Pool portfolio. With ongoing capital projects at the Port and within the City, and to ensure that sufficient liquidity is available to meet day-to-day expenditures, the City maintains a sufficient "cushion" in money market funds to meet unanticipated project expenditures.

Debt service payable from the City's Operating Pool for the Port and the City for the six months following March 31, 2013 is approximately \$120 million. Consequently, staff will continue to invest in short-term instruments and money markets as investment tools to maintain adequate short-term liquidity.

Investments maturing over the next six months are as follows:

Days	Amount(s)	Percent
0-30	\$ 176,605,960	38.82%
31-180	\$ 56,000,000	12.31%
Total	\$ 232,60 <b>5</b> ,960	51.13%

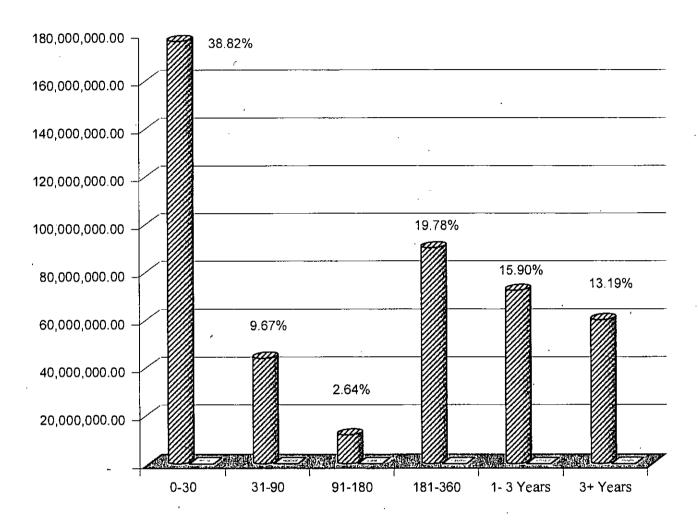

Investments maturing within 180 days include \$49.70 million in LAIF and \$82.11 million in money market funds, both of which are considered to have a one-day maturity due to the ability to withdraw funds daily.

Five Year Historical Portfolio Balance: Listed below is the balance for the operating fund portfolio for each of the last 5 years.

Year	Amount	Percent Increase/Decrease From Prior Year
March 2013	\$ 465,778,725	3.56%
March 2012	\$ 449,784,628	35.93%
March 2011	\$ 330,896,087	13.24%
March 2010	\$ 292,214,467	6.87%
March 2009	\$ 273,420,000	

The following graph depicts the Operating Fund Portfolio by dollars invested and the percentage in each maturity range as of March 31, 2013.

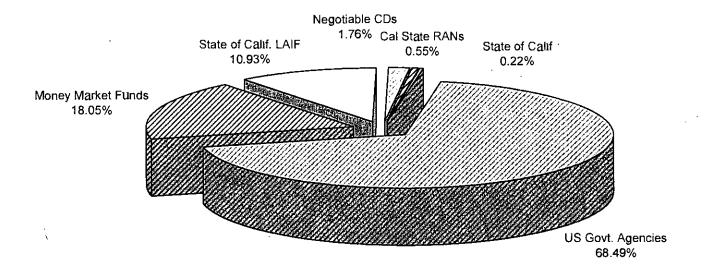

### City of Oakland Operating Fund Portfolio Maturity (As of 3/31/13)

Days to Maturity

<u>Diversity.</u> To reduce the risks of investing, the portfolio is diversified among a variety of financial instruments, as depicted by the following chart. In addition to limiting the types of investments permissible in any one category as outlined in the Investment Policy, no more than 5% of the total cash portfolio may be invested in any one issue. This single-issue provision does not apply to money market funds or to LAIF, as they each are backed by a large portfolio of highly diversified assets.

### City of Oakland Operating Fund Portfolio Diversity (As of 3/31/13)

<u>Derivatives</u>. The Operating Fund Portfolio contained no derivative instruments (interest rate swaps, futures, or options) during this reporting period.

<u>Yield.</u> Total interest earned for the quarter ended March 31, 2013 was approximately \$368,018. The effective rate of return on total assets in the Operating Fund Portfolio for month-end March 31, 2013 was 0.30% as compared to 0.32% for December 31, 2012. It continues to be the City's practice to hold investments to maturity rather than to sell at a loss and adjust to the market's yield curve. The primary investment objective of the City for the portfolio is to maximize safety, liquidity, and return in that respective order.

Comparative yields for the quarter are shown below.

### City of Oakland Operating Fund Comparative Annualized Yields (As of 3/31/13)

As of Month-end	1-Year Govt. Agency	LAIF <sup>1</sup>	Operating Fund
January 2013	0.17%	0.30%	0.31%
February 2013	0.19%	0.29%	0.34%
March 2013	0.18%	0.29%	0.30%

Effective monthly average return.

### Benchmark Comparison:

The effective rate of return on total assets in the Operating Fund Portfolio for the month ending March 31, 2013 was 0.30%. The City's Operating Fund Portfolio out-performed the 1-year government agency which yielded a rate of 0.18% as of March 31, 2013. The City's Operating Fund Portfolio slightly performed better than the Local Agency Investment Fund ("LAIF"), which ended the month at 0.29%.

As of March 31 2013, the City's Portfolio Fund's average days-to-maturity (ADM) was 368 days versus LAIF's average days-to-maturity (ADM) was 213 days.

The performance comparison to LAIF must be considered in light of LAIF's historical tendency to lag market changes in both rising and falling interest rate environments. The City does not actively sell securities in the portfolio to take advantage of cyclical swings in the market, which could result in the loss of principal. The primary investment objective of the City for the portfolio is to maximize safety, liquidity, and yield in that respective order.
