

# Planning Code Amendments: SB79

**Presentation to the City Planning  
Commission**

**February 4, 2026**

**Planning and Building Department**

**CITY OF  
OAKLAND**

# Background

- State law Senate Bill (SB) 79 (the Abundant and Affordable Homes Near Transit Act) was signed by the governor on October 10, 2025, and goes into effect on July 1, 2026.
- Areas within ½ mile of each of Oakland's designated transit stops will be designated as a transit-oriented development (TOD) zone and any parcels within the designated TOD zones could vest for development using higher density standards for housing.
- Oakland has 8 BART stations, and 38 Bus Rapid Transit (BRT) stops along the AC Transit Tempo line along International Boulevard that qualify as SB 79 TOD zones.
- There is 1 additional BART station, and 1 additional BRT stop that are not within Oakland but the ½ mile boundary extends into Oakland, this brings a total of 48 TOD zones within the Oakland boundaries
- Transit stops are categorized as Tier 1 (BART) or Tier 2 (BRT Tempo)

# SB 79 Density Standards

SB 79 Range	Height Limit	Max Density	Floor Area Ratio
Tier 1 - Adjacent (200')	95 feet	160 du/ac	4.5
Tier 1 - Quarter mile	75 feet	120 du/ac	3.5
Tier 1 – Half Mile	65 feet	100 du/ac	3
Tier 2 - Adjacent (200')	85 feet	140 du/ac	4
Tier 2 - Quarter mile	65 feet	100 du/ac	3
Tier 2 – Half Mile	55 feet	80 du/ac	2.5

# Exclusions and Alternative Plan

- SB79 allows cities to exclude some parcels from the SB 79 requirements or allows development of an Alternative Plan.
- An exclusion would suspend implementation of SB79 and allow substitution of existing Oakland zoning until an Alternative Plan is developed.
  - Exclusions will expire in 2032 and SB 79 densities will take effect if no Alternative Plan has been adopted.
- The Alternative Plan would need to accommodate the overall required density of SB 79 within the TOD zone but could:
  - Replace default density and height increases and allow a more tailored density and height based on local land use conditions, such as historic districts and lower density neighborhoods.

# Rationale for Adopting Exclusions

- There is insufficient time for the City to prepare and review an Alternative Plan prior to the SB 79 effective date of July 1, 2026.
- Exclusions may be adopted prior to the SB 79 effective date as an interim step to allow time for a City to develop an Alternative Plan.
  - The City is already engaged in the General Plan Update (GPU) phase 2, that includes the update of the Land Use and Transportation Element with adoption anticipated in late Spring of 2027.
  - City Staff want to develop its Alternative Plan in a comprehensive manner as part of the GPU process and not as a separate stand-alone process.
  - Exclusions would give the City time during the GPU to analyze which areas within the TOD Zones have potential for more density and which areas do not as well as receive community input.

# Rationale continued

- Environmental Justice Element Policy EJ-8.1 Meaningful, Relevant Engagement. Design and implement public engagement processes and events that emphasize participation from low-income communities and communities of color; that are driven by resident priorities, that are easily accessible and understandable and that provide meaningful opportunities for participants to influence outcomes.
- Almost all of Oakland's TOD zones are in low resource areas
- An Alternative Plan would allow a fine grain analysis and community involvement resulting in aggregate density equivalent to SB79 requirements.
- Existing zoning density exceeds SB79 standards in many of the designated TODs as a result of prior upzoning.
  - The 2023 Housing Element upzoned many areas of the City.
  - The Downtown Oakland Specific Plan, adopted in 2024, upzoned core areas.
  - Additional Specific Plans, such as the Central Estuary Plan, Broadway Valdez District Specific Plan, West Oakland Specific Plan, Coliseum Area Specific Plan, and the Lake Merritt Station Area Plan all increased density around the Tier 1 and Tier 2 TOD Zones.
- SB79 standards are a blanket increase in density that could override prior planning and input from the community.

# Allowed Exclusions

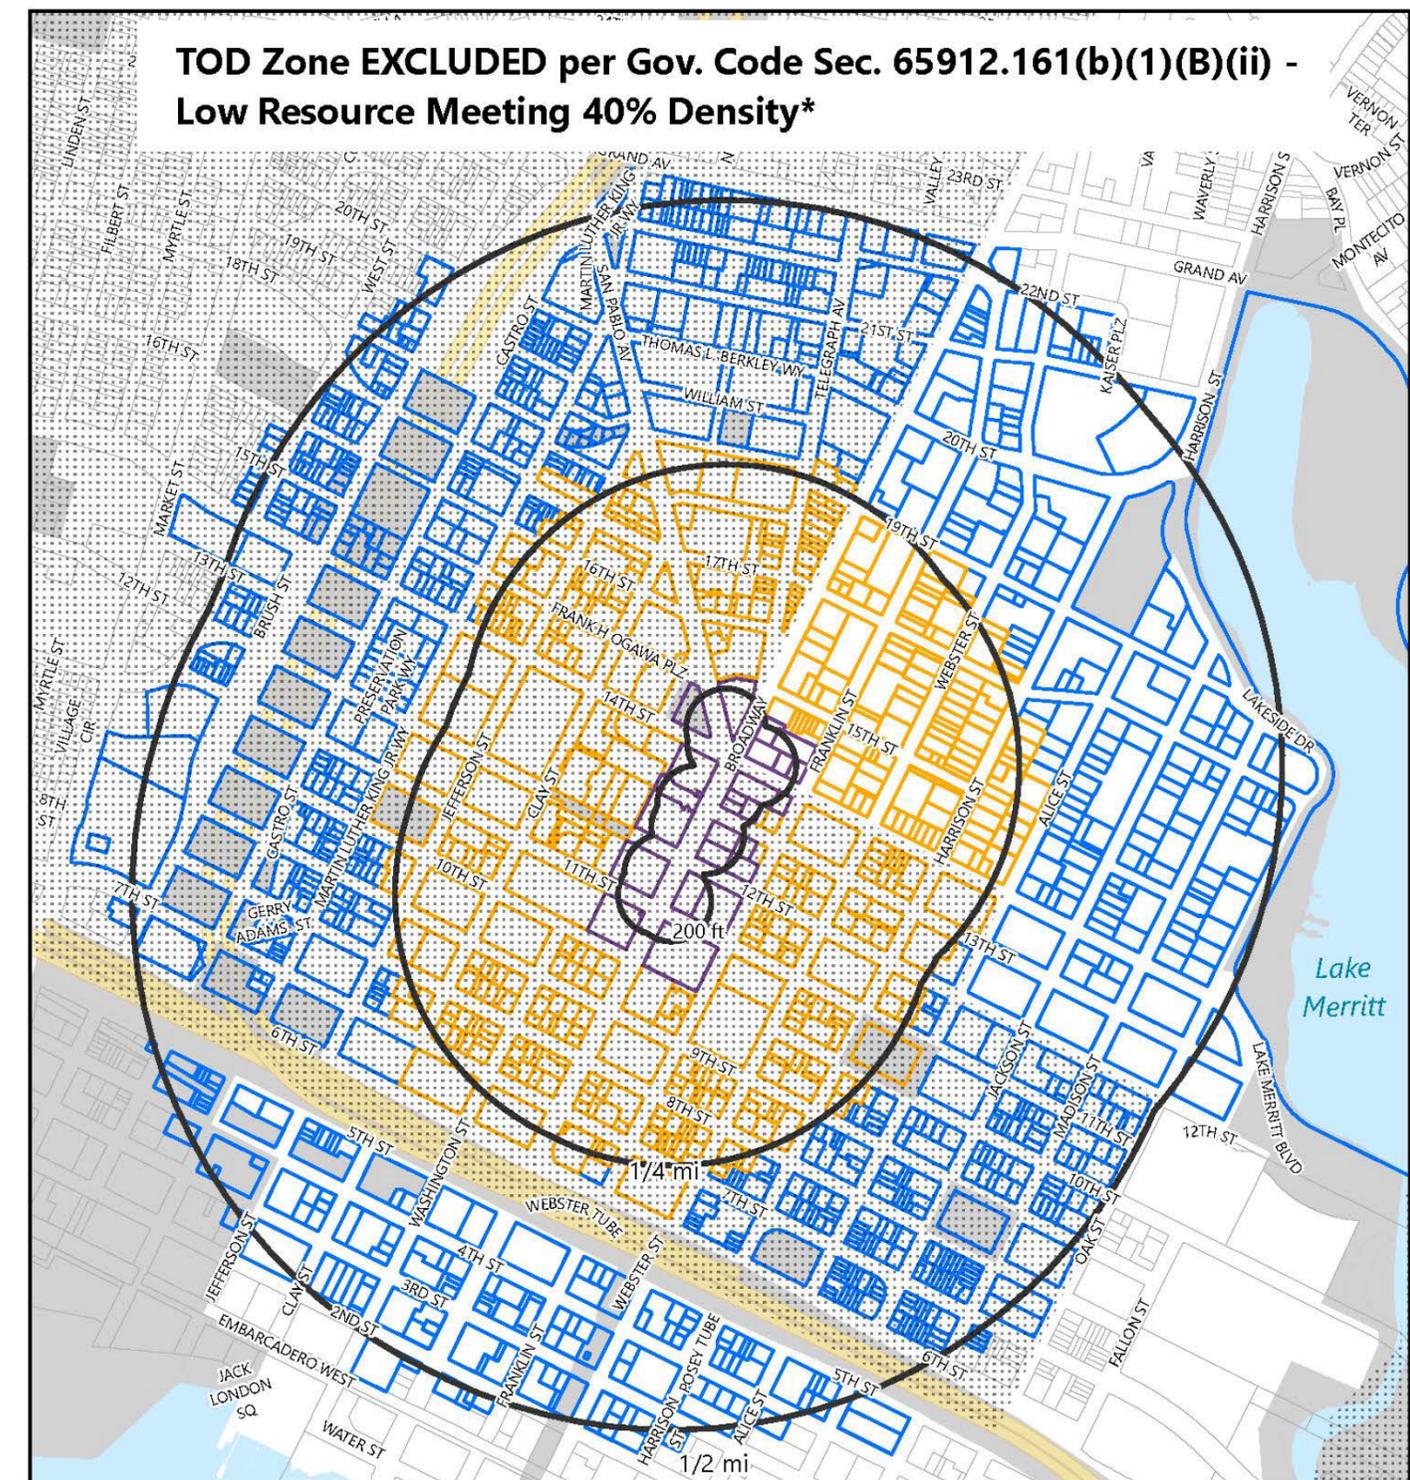

- Exclusion 1. Allows exclusion of sites when existing zoning allows density and residential floor area ratios at no less than **50 percent** of the standards specified in SB 79 (Gov. Code Sec. 65912.161(b)(1)(A)).
- Exclusion 2. Allows exclusion of sites in a TOD Zone that is primarily a low-resource area and has aggregate Oakland zoning densities that allow for at least **40 percent** of the aggregate density allowed for TOD zone as specified in SB 79. (Gov. Code Sec. 65912.161(b)(1)(B)(ii)).
- Exclusion 3. Allows exclusion of sites in a TOD zone when the parcel includes a **historic resource** designated as of January 1, 2025, on a local register. (Gov. Code Sec. 65912.161(b)(1)(F)).

# **Exclusion 2: Primarily Low Resource Zones that have zoning density that allows at least 40% of the aggregate SB 79 density**

- This exclusion applies to the entire TOD Zone rather than to individual parcels. The aggregate density of land in the Zone must allow at least 40% of the aggregate density allowed by SB 79. All Oakland TODs in Low Resource Areas meet this standard and qualify for Exclusion 2 per (Gov. Code Sec. 65912.161(b)(1)(B)(ii)).
- Qualification allows exclusion of all parcels within the entire TOD Zone.

# Example: Tier 1 TOD Zone Map for area meeting Exclusion 2

- 12th St BART TOD
- It provides 307% of SB 79 aggregate density
- All parcels within the TOD zone are excluded
- See staff report Attachment B for all maps

## SB 79 Eligibility & Exclusion Analysis

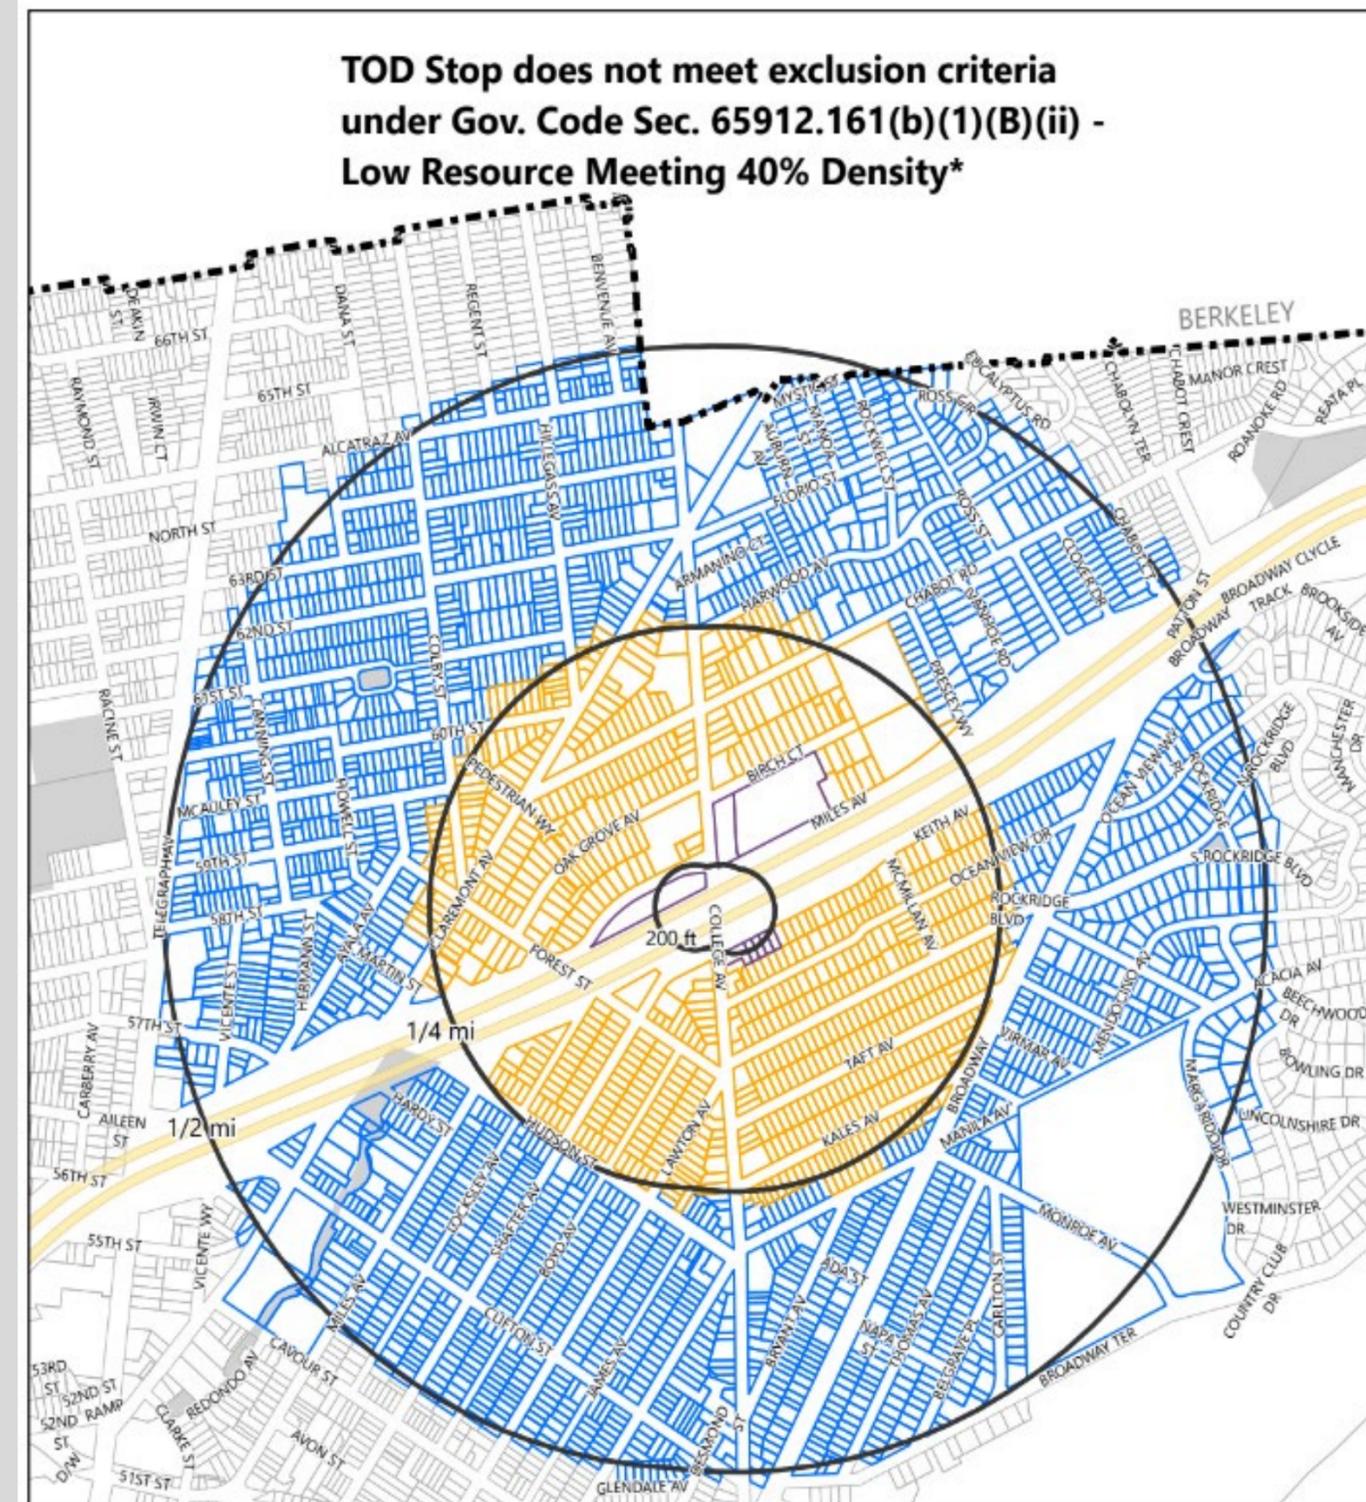

- Parcel distance from transit stop entrance
- within 200 ft
  - 200 ft to 1/4 mi
  - 1/4 mi to 1/2 mi
- Low Resource
- Ineligible - not zoned for residential, mixed-use or commercial; right of way; or water

\* Parcels located within overlapping TOD zones are excluded from SB 79 if any of the TOD zones are excluded. Parcels may also be excluded based on additional SB 79 exclusion criteria.

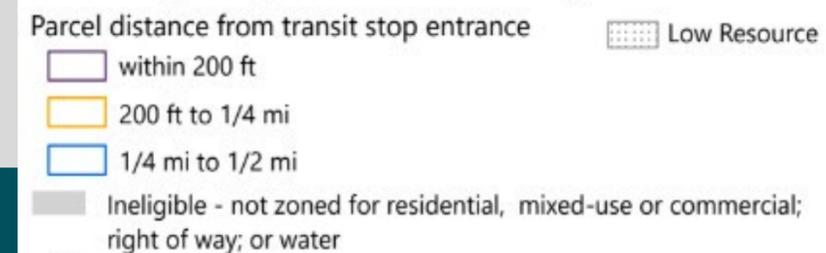

# Example: Tier 1 TOD Zone Map for area not meeting Exclusion 2

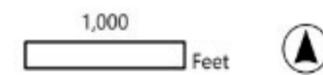

- Rockridge, MacArther and Ashby TOD Zones are not qualified for Exclusion 2 because they are high resource areas.
- These TOD Zones include some parcels that qualify for Exclusion 1 and Exclusion 3.
- See staff report Attachment B for all maps.

## SB 79 Eligibility & Exclusion Analysis

\* Parcels located within overlapping TOD zones are excluded from SB 79 if any of the TOD zones are excluded. Parcels may also be excluded based on additional SB 79 exclusion criteria.

# Summary Tier 1 TODs in Low Resource Area

Tier 1 BART Stations	Qualifying Percentage	Aggregate Capacity in Dwelling Units	SB 79 Aggregate Capacity in Dwelling Units
19 <sup>th</sup> Street BART	287%	115,921	40,450
12 <sup>th</sup> Street BART	307%	118,425	38,629
West Oakland BART	70%	15,913	22,876
Lake Merritt BART	254%	79,675	31,415
Fruitvale BART	72%	28,554	39,529
Coliseum BART	190%	68,128	35,784

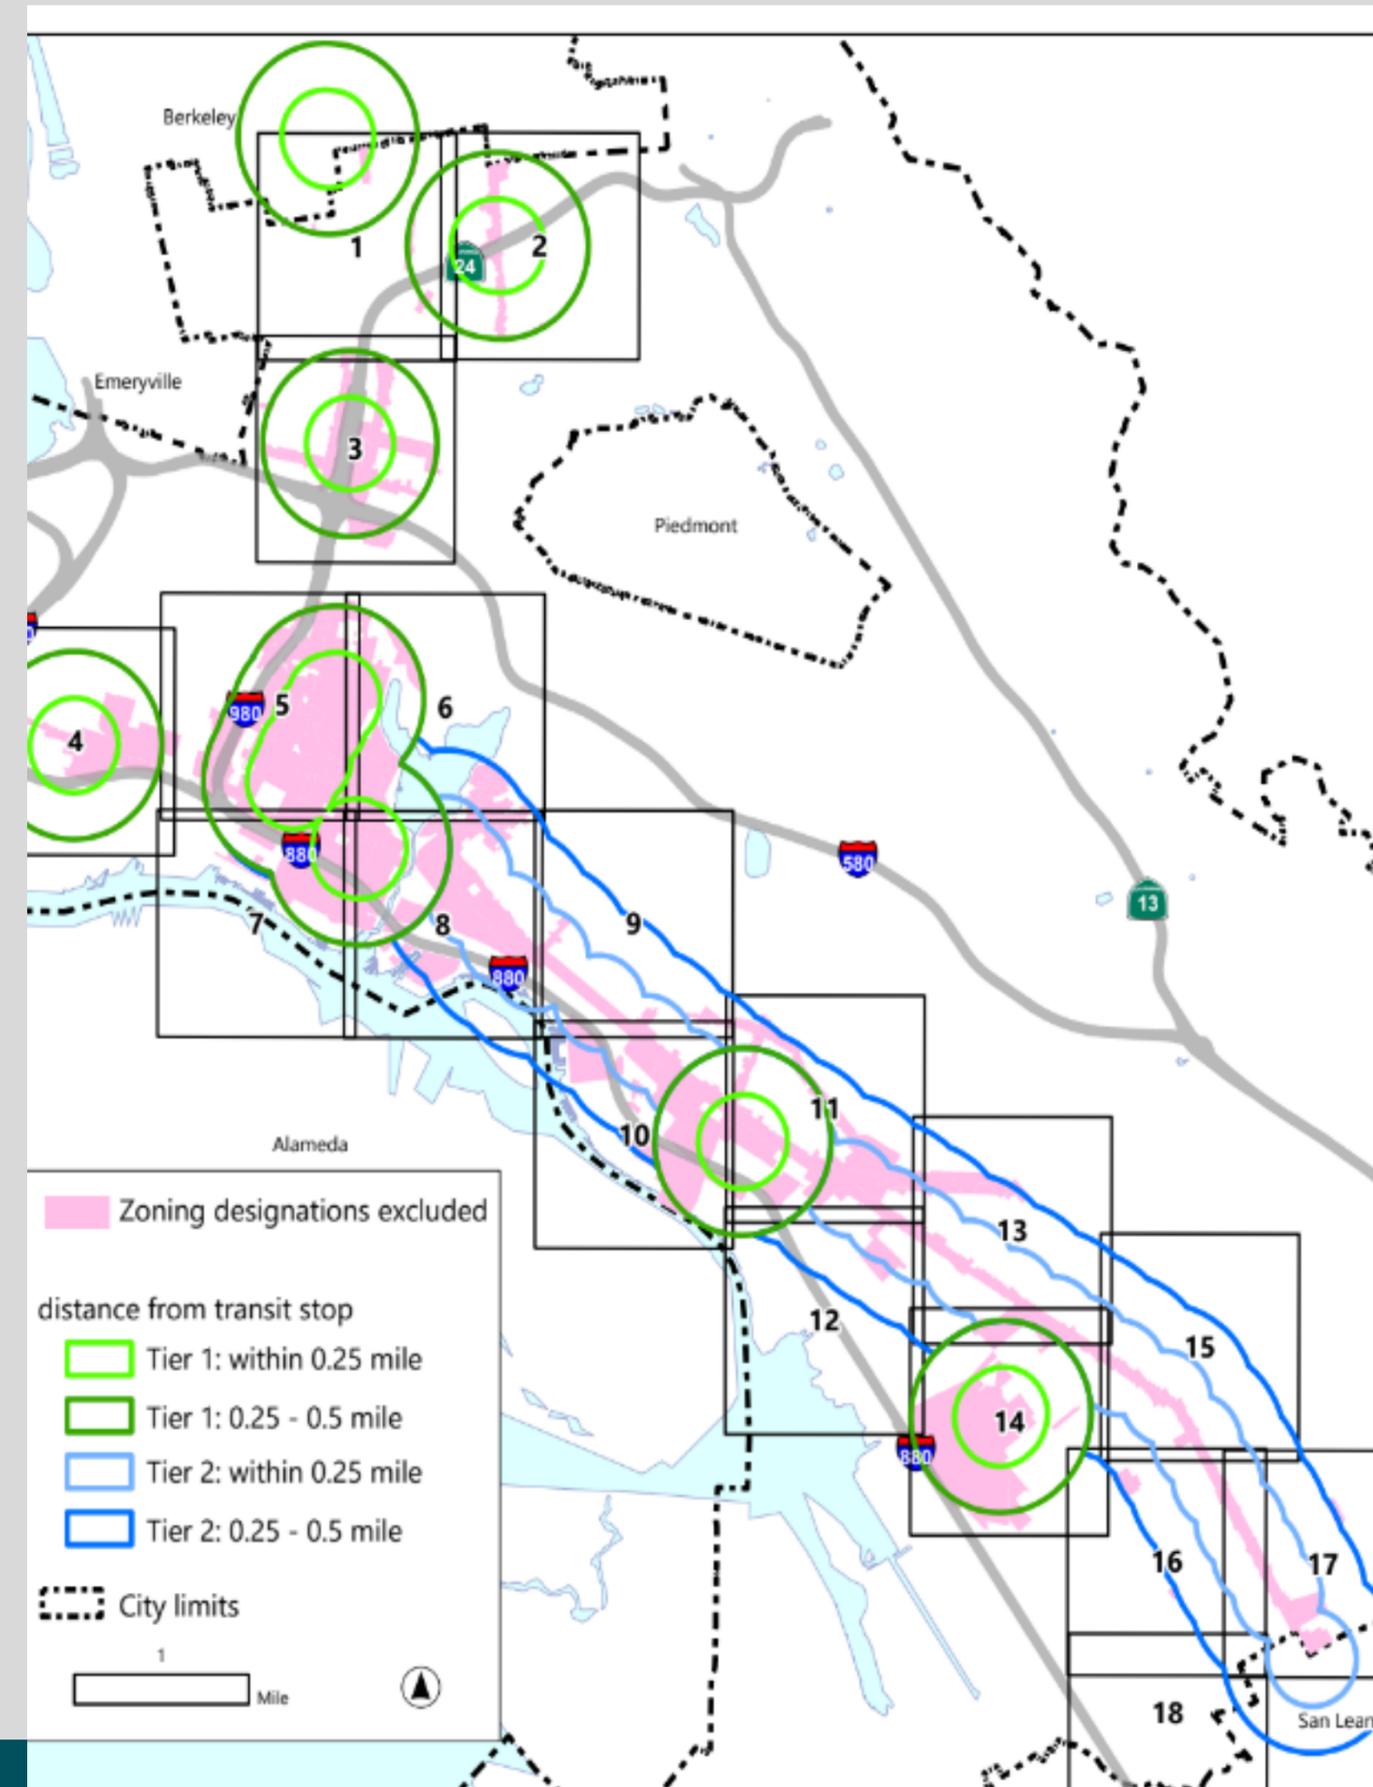

# Summary Tier 2 TODs in Low Resource Areas

Oakland Tier 2 TOD Zone (AC Transit Tempo Stops)	Criteria for Exclusion1) Low Resource Area 2) Aggregate Capacity is Greater than 40% of the SB 79 Capacity		Oakland Capacity in Dwelling Units	SB 79 Capacity in Dwelling Units
	Low Resource	Qualifying Capacity		
Map 10 Uptown Oakland SB	Yes	380.15%	99,812	26,256

# Exclusion 1: 50% of Zoned Density and FAR

- This exclusion applies to parcels in both high resource and low resource TOD Zones.
- Parcels must have existing zoning that allows at least 50% of SB 79 standards for density and Floor Area Ratio (FAR) per (Gov. Code Sec. 65912.161(b)(1)(A)).
- All TOD zones have some parcels that qualify for this exclusion.
- See Staff Report Attachment D for all maps.

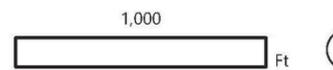

# Exclusion 1

- Parcels in Oakland with zoning that exceeds 50% of SB79 density and FAR are shown for the Ashby TOD parcels in Oakland, Rockridge TOD, and MacArthur TOD.
- These are the only parcels qualified for exclusion in these Tier 1 TODs that are not within a low resource area along with any parcels that are Local Register Historic properties shown in Exclusion 3.

 Local Register parcel within half mi of TOD stop entrance  
 City Limits

# Proposed S-8 Combining Zone

- Includes all parcels of land that are within one-half mile of Tier 1 and Tier 2 Transit-Oriented Development Zones, regardless of their zoning designation.
- Defines Eligible Site under SB 79 as a site zoned for residential, mixed, or commercial development.
- Defines Ineligible Site as a site that does not meet the above criteria, such as sites zoned for industrial or open space activity, or is within the right-of-way.
- Defines Covered Site as a site eligible under SB 79 but not excluded.
- Applies exclusions to certain sites that would otherwise be eligible for SB 79 but qualify for an exclusion as described in California Government Code Section 65912.161.
- Amends the zoning map to show which sites are eligible and ineligible for SB79 regulations and which sites are excluded or covered
- Clarifies that excluded parcels are regulated by the underlying zoning.
- The exclusions shall be applied comprehensively; a site shall be mapped as excluded if it is designated as excluded under any of the exclusions, i.e. Exclusion 1, 2, or 3.

# Tentative Dates of Council Meetings

- **February 24, 2026** – Community Economic Development (CED) Meeting
- **March 3, 2026** – City Council (First Reading)

# Staff Recommendation

Staff requests that the Planning Commission:

Recommend that the City Council Conduct A Public Hearing And, Upon Conclusion, Adopt An Ordinance:

- Amending Title 17 Of The Oakland Municipal Code (The Planning Code) To Add Chapter 17.86 S-8 Abundant and Affordable Homes Near Transit (Senate Bill 79) Combining Zone Regulations Identifying Sites Eligible And Ineligible Or Excluded From The Senate Bill 79 Property Development Standards;
- Making Related Oakland Zoning Map Amendments to Designate Parcels Within The S-8 Combining Zone And To Identify Whether Such Designated Parcels Are Eligible For Or Excluded From The Senate Bill 79 Property Development Standards; And
- Making Appropriate California Environmental Quality Act Findings.
