The report summarizes the characteristics of the investment portfolios, along with attachments showing the Funds’ monthly transactions and holdings for the quarter ended September 30, 2010.

This report is presented for information and review only and requires no Council action.

KEY ISSUES AND IMPACT

Cash Position

As of September 30, 2010, the City's Operating Fund Portfolio balance was \$288.27 million compared to \$219.16 million as of September 30, 2009; this was mainly due to an increase in the Port's share of the Operating Fund balance. The Agency's Fund Portfolio balance was \$167.86 million as of September 30, 2010 compared to \$203.03 million as of September 30, 2009.

Yield Comparison

The effective rate of return on total assets in the Operating Fund Portfolio for the month ending September 30, 2010 was 0.57%. The City's Operating Fund Portfolio outperformed the 6-month Treasury Bill which yielded a rate of 0.19% as of September 30, 2010. The City's Operating Fund Portfolio slightly outperformed the Local Agency Investment Fund ("LAIF"), which ended the month at 0.50%.

The effective rate of return on total assets in the Agency's Fund Portfolio for the month ending September 30, 2010 was 0.89 %. The Agency Fund Portfolio outperformed the 6-month Treasury Bill which yielded a rate of 0.19% as of September 30, 2010. The Agency's Fund Portfolio outperformed the Local Agency Investment Fund ("LAIF"), which ended the month at 0.50%.

The performance comparison to LAIF must be considered in light of LAIF's historical tendency to lag market changes in both rising and falling interest rate environments. Moreover, the City does not actively sell securities in the portfolio to take advantage of cyclical swings in the market, which could result in the loss of principal. The primary investment objective of the City for the portfolio is to maximize safety, liquidity, and return in that respective order.

SUSTAINABLE OPPORTUNITIES

Economic: The Cash Management Report summarizes the characteristics of the investment portfolios for the quarter. The portfolios' credit quality remains high and well within the parameters of the City's Investment Policy. Liquidity for both portfolios remains sufficient to meet the City's projected needs.

Environmental: To the extent that new investment opportunities are found in companies involved in environmentally positive activities, the City will be supporting these actions.

Social Equity: The City's policy is to invest, when possible, in companies that promote the use and production of renewable energy resources and any other types of socially responsible investments. Optimization of the portfolios while observing those key areas will not only produce interest earnings to the General Fund, but these monies may be available for services to disadvantaged areas, or enhanced recreational or social venues. Furthermore, the Treasury Division is making every effort to identify and purchase additional qualifying investments from renewable energy and other socially responsible companies.

DISABILITY AND SENIOR CITIZEN ACCESS

There are no disability and senior citizen access issues identified in this report.

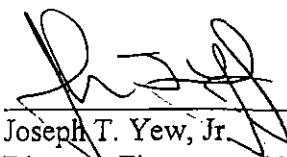

RECOMMENDATION(S) AND RATIONALE

Staff recommends Council's acceptance of this informational report.

I. ECONOMIC REVIEW

MARKET OVERVIEW

The consumer price index, which measures the change in prices for goods and services, rose a seasonally adjusted 0.1 percent in September, according to the Labor Department. This indicates that inflation remains very low and supports the Federal Open Market Committee's decision to keep interest rates at historical lows.

The Labor Department reported 12-month inflation at 1.1 percent, and that core inflation which excludes volatile food and energy prices was 0.9 percent – the smallest increase since January 1966. At the September Federal Open Market Committee meeting, the Federal Reserve indicated that they are prepared to provide additional accommodation if needed to support the economic recovery and to return inflation, over time, to the feds target range of 1.0 – 2.0 percent.

Retail spending increased in September amid continued low inflation. The Commerce Department reported that U.S. sales rose by 0.6 percent in September, beating market expectations for a weaker 0.4 percent monthly increase. Compared with September 2009, sales are up 7.3 percent. Retail activity gained only 0.4 percent due to clothing and accessories stores realized a 0.2 percent decline in sales, while auto sales were up 1.6 percent in the month of September.

RealtyTrac reported that banks foreclosed on 102,134 properties in September, the first single month above the century mark. There were 347,420 total foreclosure filings in September, 3 percent higher than August but 1 percent higher than the previous year. For the quarter, there were 930,437 foreclosure filings, an increase of 4 percent over the prior three months but 1 percent lower than a year ago.

The national unemployment rate has largely held steady in 2010 with a 9.6 percent unemployment rate for the third quarter, which is down from 9.8 percent in September, 2009. Approximately 14.8 million workers are without jobs as the economy continues to experience slow growth. Government employment continued to drop, as federal Census workers completed their work, along with job losses in local government. Private sector employment continued to show positive signs, as 64,000 jobs were added to the economy in September.

INTEREST RATES

The Federal Open Market Committee (FOMC) left the federal funds target rate unchanged at its August and September policy meetings, stating that the rate would remain in the exceptionally low range of 0 percent to 0.25 percent for "an extended period," and it did not mention any planned changes to the central bank's asset holdings. The FOMC also kept the rate it charges on direct loans to banks (i.e., the discount rate) steady at 0.75 percent. The FOMC did, however, use a more cautious tone in its outlook for economic activity, noting that risk remains.

II. CITY OF OAKLAND

PORTFOLIO REVIEW

The City's Portfolio balances decreased from \$307.22 million on June 30, 2010 to \$288.27 million by September 30, 2010. The decrease was due to debt service payments, normal operating expenses, and vendor payments.

PORTFOLIO RATING

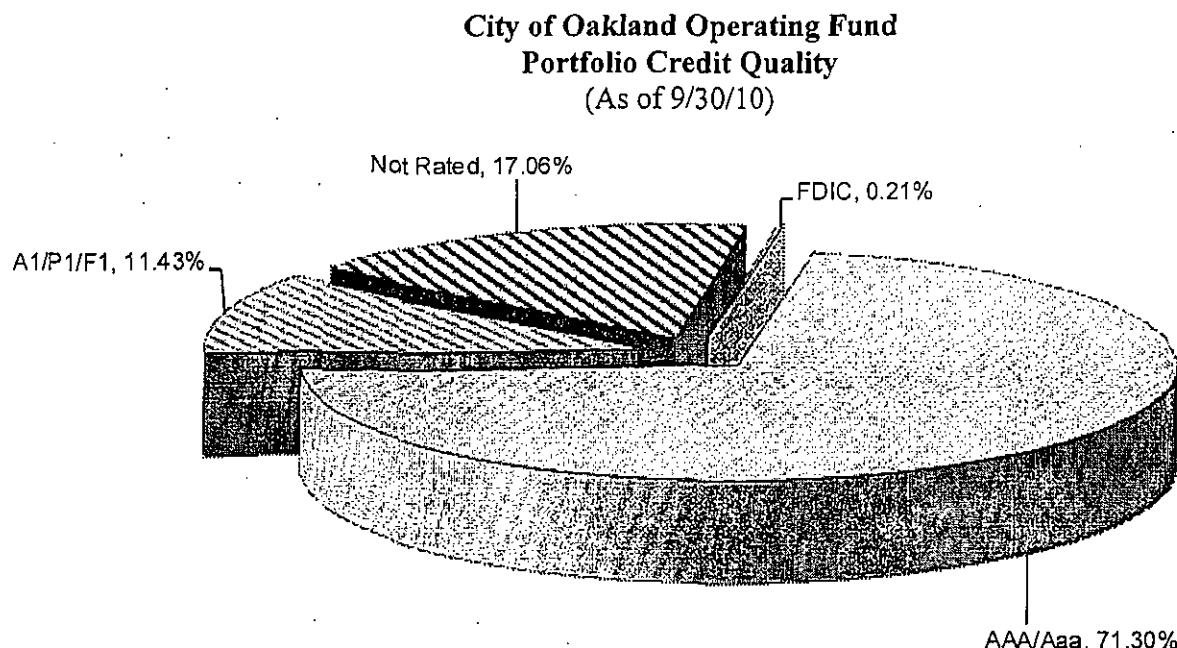

In March 2010, Fitch updated its rating criteria of local government investment pools. Fitch affirmed the highest managed fund credit rating of *AAA* and market risk rating of *V1* to the City's Operating Fund Portfolio (attached). The fund volatility rating was revised to *V1* from *V1+*, which does not reflect any change in market risk but is solely as a result of Fitch eliminating *V1+* rating from its fund volatility rating scale. The *AAA* credit rating reflects the highest credit quality based on asset diversification, management strength and operational capabilities. The *V1* market risk rating represents the lowest market risk that can be expected with no loss of principal value even in adverse market conditions. Fitch's market risk ratings reflect the rating agency's assessment of relative market risks and total return stability in the portfolio based on analyses of various market indicators such as interest rates, liquidity and leverage risk, if any. As a condition of maintaining these ratings, the City provides monthly information to Fitch for review of the Operating Fund Portfolio activity and holdings.

PORTFOLIO COMPOSITION

The Portfolio continues to comply with all provisions of the City's adopted Investment Policy for Fiscal Year 2010-2011, including compliance with applicable local ordinances and resolutions such as Nuclear Free Zone, Linked Banking, and Tobacco Divestiture.

The following discussion addresses the City's investment portfolio characteristics in terms of the Investment Policy's four objectives: safety, liquidity, diversity and return. Portfolio detail for each month of the current quarter is attached to this report.

Preservation of Capital/Safety. In the chart below, the City's holdings are depicted by credit rating category as of September 30, 2010. Approximately 71.30% of Operating Fund investments were rated in the AAA/Aaa category while 17.06% primary unrated holdings represent the Fund's investments in the Local Agency Investment Fund ("LAIF"). The A1/P1/F1 category contained 11.43% while FDIC-insured Certificates of Deposit constituted less than 1% of the total Operating Fund.

Liquidity. Liquidity continues to be a primary objective when making investment decisions for the Operating Pool portfolio. With ongoing capital projects at the Port and within the City, and to ensure that sufficient liquidity is available to meet day-to-day expenditures, the City maintains a sufficient "cushion" in money market funds to meet unanticipated project expenditures.

Debt service payable from the City's Operating Pool for the Port and the City for the six months following September 30, 2010, is approximately \$150.2 million. Consequently, staff will continue to invest in short-term instruments and money markets as investment tools to maintain adequate short-term liquidity.

Investments maturing over the next six months are as follows:

Days	Amount(s)	Percent
0-30	\$ 168,302,100.42*	58.36%
31-180	\$ 76,599,000.00	26.56%
Total	\$ 244,901,100.42	84.92%

* Increased dollar amount due to short term cash flow needs.

Five Year Historical Portfolio Balance: Listed below is the balance for the operating fund portfolio for each of the last 5 years.

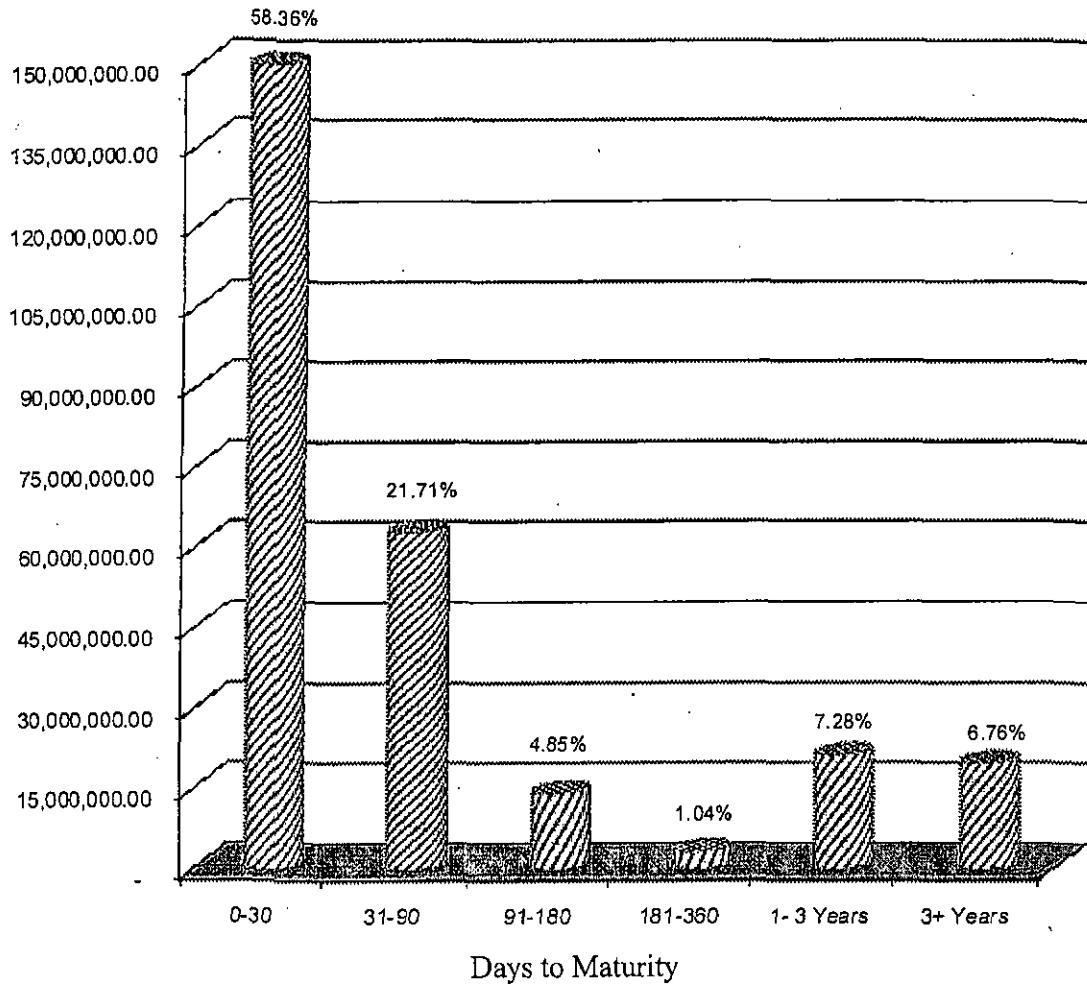

Year	Amount	Percent Increase/Decrease From Prior Year
September 2010	\$288,401,000	31.56%
September 2009	\$219,209,000	(7.60%)
September 2008	\$237,250,000	(6.50%)
September 2007	\$253,740,000	(17.42%)
September 2006	\$307,270,000	-

The total amount maturing within 180 days includes \$49.19 million in LAIF and \$54.11 million in money market funds, both of which are considered to have a one-day maturity due to the ability to withdraw funds daily.

Diversity. To reduce the risks of investing, the portfolio is diversified among a variety of financial instruments, as depicted by the following chart. In addition to limiting the types of investments permissible in any one category as outlined in the Investment Policy, no more than 5% of the total cash portfolio may be invested in any one issue. This single-issue provision does not apply to money market funds or to LAIF, as they each are backed by a large portfolio of highly diversified assets.

Derivatives. The Operating Fund Portfolio contained no derivative instruments (interest rate swaps, futures, or options) during this reporting period.

Yield. Total interest earned for the quarter ended September 30, 2010, was approximately \$394,647. The effective rate of return on total assets in the Operating Fund Portfolio for month-end September 30, 2010, was 0.57% as compared to 0.55% for June 30, 2010. It continues to be the City's practice to hold investments to maturity rather than to sell at a loss and adjust to the market's yield curve. The primary investment objective of the City for the portfolio is to maximize safety, liquidity, and return in that respective order.

The performance comparison to LAIF must be considered in light of LAIF's historical tendency to lag market changes in both rising and falling interest rate environments. The primary investment objective of the City for the portfolio is to maximize safety, liquidity, and return in that respective order.

III. OAKLAND REDEVELOPMENT AGENCY

PORTFOLIO REVIEW

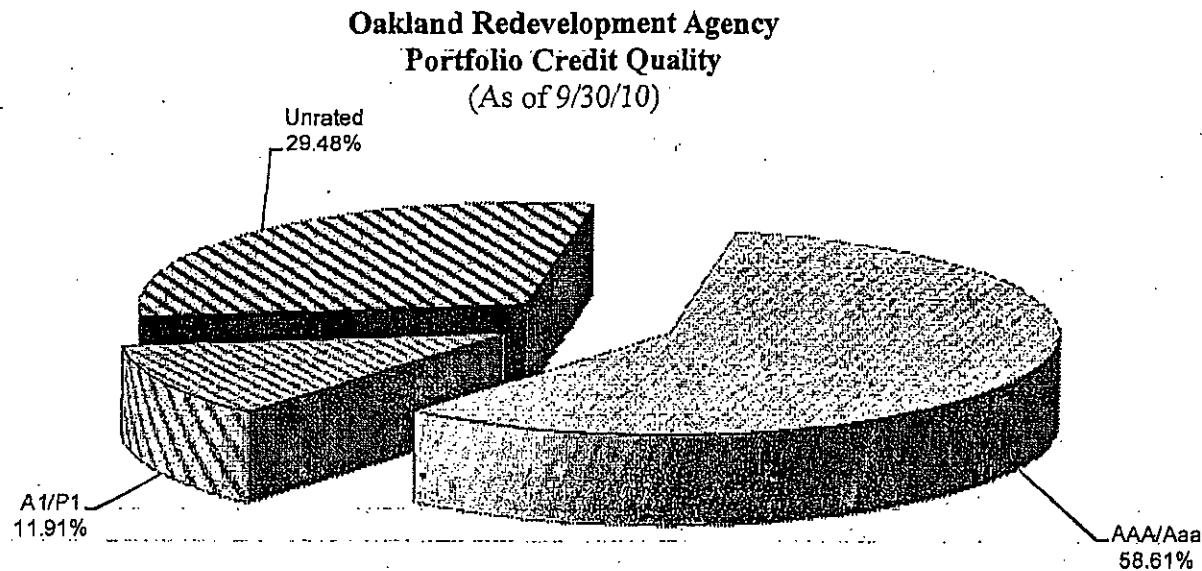

The Agency's portfolio decreased from a balance of \$216.79 million as of June 30, 2010 to \$167.86 million as of September 30, 2010. Contributing to the portfolio decrease was largely due to debt service payments and project expenditures.

PORTFOLIO COMPOSITION

The Portfolio continues to comply with all provisions of the City's adopted Investment Policy for Fiscal Year 2010-2011, including compliance with applicable local ordinances and resolutions such as Nuclear Free Zone, Linked Banking, and Tobacco Divestiture. In addition, the City will invest, when possible, in companies that promote the use and production of renewable energy resources and any other type of socially responsible investments.

The following discussion addresses the Agency investment portfolio characteristics in terms of the Investment Policy's four objectives of safety, liquidity, diversity and return. Portfolio detail for each of the months in the current quarter is attached to this report.

Preservation of Capital/Safety. The Agency's holdings by credit rating category are depicted in the chart below. Primary unrated holdings represent 29.48% of the Fund's investments in LAIF while the A1/P1 category contained 11.91% of the total Operating Fund.

Liquidity. Liquidity within the Agency's Portfolio remains sufficient to meet all expected cash flow needs of the Agency for the next six months and beyond. The debt service payment for the next six months for the Agency is approximately \$ 43.5 million. The Agency also maintains a sufficient "cushion" in highly liquid instruments to meet unanticipated project expenditures.
