These statistics are drawn from the Oakland Police Dept. database. They are unaudited and not used to figure the crime numbers reported to the FBI's Uniform Crime Reporting (UCR) program. This report is run by the date the crimes occurred. Statistics can be affected by late reporting, the geocoding process, or the reclassification or unfounding of crimes. Because crime reporting and data entry can run behind, all crimes may not be recorded.

These statistics are drawn from the Oakland Police Dept. database. They are unaudited and not used to figure the crime numbers reported to the FBI's Uniform Crime Reporting (UCR) program. This report is run by the date the crimes occurred. Statistics can be affected by late reporting, the geocoding process, or the reclassification or unbounding of crimes. Because crime reporting and data entry can run behind, all crimes may not be recorded.

emergency response times above and beyond overtime, call volume, and the level of proactive police work that has taken place.<sup>69</sup> Achieving minimum staffing, supporting the recruitment and retention of dispatchers, and optimizing officer and dispatch deployment are all critically needed.

**Strategy 5: Impact on Measure NN Objectives**

- Reduce homicides, robberies, carjackings, break-ins, domestic violence, and gun-related violence
- Improve emergency 911 response times and the quality of response
- Reduce the incidence of human trafficking, including the sexual exploitation of minors

**Strategy 5: Performance Metrics**

- Number of sworn officers
- Improved sworn officer retention rate
- Improved dispatch retention rate
- Reductions in overtime costs as a proportion of total personnel costs
- Improved residents’ perceptions of safety and responsiveness
- Reduced disparities in emergency response times in East Oakland compared to the rest of the city
- Reduced disparities in emergency response times among residents who speak a language other than English compared to residents who speak English

**Strategy 5: Estimated Funding Allocation**

3% - 7% of Measure NN funding from 2026-2030

**STRATEGY 6: COMMUNITY ACCOUNTABILITY & TRUST**

Lead Implementing Agency: Oakland Police Department

**Strategy Description**

This strategy ensures that OPD complies with oversight agreements and implements activities designed to foster and sustain trust with the residents of Oakland. By implementing proactive strategies to communicate with Oakland residents and through collaboration with Neighborhood Crime Prevention Councils and the Community Policing Advisory Board, OPD will lay the groundwork for reestablishing the city’s robust Community Resource Officer program and improve community perceptions of the police. Compliance with the Negotiated Settlement Agreement and collaboration with other oversight bodies

can prevent abuses of power and repair historical mistrust between OPD and the residents of Oakland, especially those who have experienced disparate police response, over-policing, and abuse at the hands of police. This strategy also supports activities and initiatives within OPD that increase communication, transparency, and accountability; strengthen bidirectional information sharing; and solicit community feedback on their perception of and satisfaction with the services provided by OPD.

### Strategy 6: Supported Activities

- Advance initiatives needed to achieve full compliance with the Negotiated Settlement Agreement
- Collaborate with the Community Policing Advisory Board and Neighborhood Councils to develop the infrastructure for a comprehensive Community Resource Officer Program, ensuring readiness as staffing levels rise
- Develop and implement an expanded community information-sharing strategy so that residents can stay up to date, engage in dialogue, and provide feedback to OPD
- Other improvements and changes to internal practices that strengthen transparency, accountability, and department response to community feedback

## Strategy 6: Rationale

---

Distrust of the police varies by race<sup>70</sup> as a result of persistent and historical disparities in treatment by law enforcement and judicial processes.<sup>71</sup> <sup>72</sup> Deliberate positive contact with police can substantially improve community members' attitudes toward police, leading to improved perceptions of police legitimacy and willingness to cooperate.<sup>73</sup> Earlier studies of community policing show that it improves citizen satisfaction, police legitimacy, and trust between residents and law enforcement.<sup>74</sup> A recent evaluation of the Comprehensive Safety Model implementation in Los Angeles, which works by building trust and relationships between officers, community residents, and stakeholders, resulted in reductions in crime in targeted low-income areas, including network/group violence.<sup>75</sup> Strengthened trust can contribute to an improved sense of safety among residents and ultimately reduce crime.

Compliance with the Negotiated Settlement Agreement can reduce racial disparities in policing, prevent abuse and police misconduct, and strengthen trust in the department. The Negotiated Settlement Agreement resulted from a civil rights lawsuit against OPD (*Delphine Allen et al. v. City of Oakland*), which was also known as the Riders Case<sup>76</sup>—the largest police misconduct case in the city's history. The City of Oakland and OPD have been under the oversight of an independent monitor since 2003; the sustainability period began in May 2022. The court has extended the sustainability period due to “the failure of leadership.” In its most recent report, the independent monitor cited significant concerns with the Internal Affairs Bureau, its ability to resolve complaints in a timely fashion, and the need to restructure the organizational chart so that the Internal Affairs Bureau reports to a Deputy Chief.<sup>77</sup>

Collaboration with the Community Policing Advisory Board can improve police/community relationships and lay the groundwork for relaunching the Community Resource Officer role when staffing levels within OPD improve. The Community Policing Advisory Board is responsible for supporting public safety at the neighborhood and community levels through collaboration and problem-solving.<sup>78</sup>

### Strategy 6: Impact on Measure NN Objectives

---

- Reduce homicides, robberies, carjackings, break-ins, domestic violence, and gun-related violence
- Improve emergency 911 response times and the quality of response
- Reduce the incidence of human trafficking, including the sexual exploitation of minors

### Strategy 6: Performance Metrics
