# About this Plan

Downtown Oakland is the heart of the East Bay, the historic center of Oakland, a major employment hub, and a significant cultural center. It is home to groundbreaking art, social innovation and original expression. The Downtown Oakland Specific Plan (DOSP) seeks to preserve and enhance this dynamic culture that Oaklanders treasure about downtown. It is designed to prevent displacement of both people and culture, while encouraging downtown's development in ways that assist all Oaklanders to safely and affordably access housing, transportation, recreation, health and good jobs.

A specific plan is a State-regulated policy document that implements a community's General Plan in a defined area - in this case Downtown Oakland. It regulates land use, guides future development, and focuses local policies, regulations and action steps to result in a built environment that achieves community goals.

The policies that support the goals of this specific plan are found in the topic areas of the plan:

## 1. ECONOMIC OPPORTUNITY

## 2. HOUSING & HOMELESSNESS

## 3. MOBILITY

## 4. CULTURE KEEPING

## 5. COMMUNITY HEALTH & SUSTAINABILITY

## 6. LAND USE & URBAN DESIGN

## 7. IMPLEMENTATION & ONGOING ENGAGEMENT

## What Will the Plan Do?

### » INCREASE HOUSING AND JOBS NEAR TRANSIT

The DOSP aims to develop dense housing and jobs near transit, which supports the City's environmental goals, by streamlining production of both market-rate and affordable, subsidized housing. To achieve maximum density in key areas, developers will need to provide community benefits including affordable housing and commercial space, public restrooms, streetscape improvements and employment training.

### » EXPAND FUNDING FOR PUBLIC SERVICES

The DOSP aims to generate funds through one-time development impact fees to subsidize affordable housing, transportation and other capital improvements, as well as through long-term development-generated tax revenues that can build affordable housing and provide other city services, including parks and street maintenance.

### » REVITALIZE LOCAL BUSINESSES AND ENHANCE PUBLIC SAFETY

The DOSP aims to stem cultural displacement, allowing Black, Indigenous and People of Color-led small businesses, arts and entertainment groups, and nonprofits to thrive, and fill retail vacancies on the ground floor by providing more land use flexibility. This will increase foot traffic to support public safety, provide more services and welcome Oakland residents from throughout the city to downtown.

### » MODERNIZE AND BROADEN THE ROLE OF DOWNTOWN

The DOSP aims to build a mixed-use, culturally thriving downtown that supports local businesses without relying solely on the office. It protects our more accessible industrial jobs near the Port and encourages research and development and biotech (which have a high density of on-site jobs) in the heart of downtown.

### » PREPARE FOR CLIMATE CHANGE AND SEA LEVEL RISE

The DOSP aims to permit new housing in areas susceptible to sea level rise only with comprehensive infrastructure and adaptation plans to protect neighborhoods against flooding, and align land use and infrastructure policy to address the impacts of climate change and sea level rise.

### » RECONNECT WEST OAKLAND WITH DOWNTOWN

The DOSP has forwarded the conversation about reimagining I-980 to benefit Oakland and repair harm done to the West Oakland community.

# Equity & Inclusive Community Engagement

The DOSP includes an equity framework that is designed to reduce relevant racial disparities. The Plan's "equity indicators" that measure these disparities include housing cost burden, homelessness, displacement, disconnected youth, unemployment rate and median income. The DOSP includes policies that are explicitly designed to reduce these disparities. Each topic chapter includes racial equity "measures of success" to track the DOSP's impact over time. Oakland's Racial Equity Impact Assessment approach will help guide implementation.

The DOSP was also developed with more racially and socially inclusive community engagement than prior planning efforts. The City brought on a racial equity consultant team and engaged in deeper racial equity-focused interviews, focus groups and working groups. This team also helped the City broaden participation and enhance the racial diversity of the Community Advisory Group, which includes representatives from community-based organizations, artists, housing advocates, non-profit and for-profit developers, business organizations and neighborhood organizations.

The nearly eight years of engagement also included a ten-day public open house, town halls, public hearings, online surveys, surveys at events such as the Black Joy Parade and Lunar New Year, and youth activities such as a Youth Summit and classroom collaboration with middle and high schools through UC Berkeley's Y-PLAN. Planning staff solicited the thoughts of older adults and people with disabilities with help from a working group of advocates. The full process is described in pages 12-15 of the DOSP.

## COVID-19 Recovery

Specific pandemic-related strategies and policies are highlighted within chapters as call out boxes, and include a COVID-19 label.

## PLAN REVISIONS

Staff received thousands of comments on the Public Review Draft Plan, including recommendations for changes. Revisions responding to these comments include new and updated data, maps, strategies & policies, primarily addressing COVID-19 impacts & recovery. They also include:

- Preservation of industrial land uses closest to the West Oakland industrial area.
- Updated affordable housing targets to reflect the City's new Permanent Access to Housing (PATH) Framework.
- A chapter dedicated to Implementation & Engagement.
- A new illustrated vision for Lake Merritt Boulevard.
- New appendices detailing development frameworks for Victory Court (a new mixed-use residential community in Jack London, along the Lake Merritt Estuary and Channel) and the Green Loop (a series of streetscape and mobility improvements to the existing network to connect downtown and surrounding neighborhoods with waterfront, cultural and entertainment areas).

Sample Pages from the Implementation Matrix (Chapter 7)

Key changes to the DOSP's development program since the 2019 Public Review Draft include:

- A slight reduction in office and flex commercial space.
- Reduction in retail and neighborhood-serving commercial space.
- A large increase in light industrial space.
- Updated maps to reflect these changes to land use character and building intensities.

Housing projections have remained the same. Many of the comments on the Public Review Draft specifically addressed height and zoning, and these were integrated into the implementing Zoning Amendments adopted alongside the DOSP.

## HOW THE PLAN WILL BE USED

City departments and staff will use the plan to guide policy decisions, resource allocation, workplans, regional and state level plans and advocacy and community partnerships. Having a vision will make Plan projects eligible for grants and allow the City to request assistance from philanthropic foundations. The Plan's Environmental Impact Report will facilitate approval for projects that meet the goal of the plan and follow mitigation measures.

The plan will be implemented in partnership with community organizations, through interdepartmental and inter-agency cooperation, and in ongoing engagement with the community, as outlined in a specific implementation chapter and timeline matrix (Chapter 7).

## UNCERTAINTY AND THE FUTURE

Partway through the development of the DOSP, the world faced the COVID-19 pandemic. This global crisis and the resulting cultural and structural changes hastened already in-progress shifts in retail and the workplace, worsened racial inequities, weakened public transit and shifted the role of downtowns. At the time the DOSP is being adopted, downtowns are facing dramatic uncertainty about what function they will serve in a community, particularly regarding office employment.

Yet Oakland is remaking itself; while daytime office occupants are reduced, particularly on Mondays and Fridays, new residents are filling recently completed housing and the nighttime arts and entertainment economy is booming, led by Black and Brown entrepreneurs and artists. Other innovations are yet to emerge. The DOSP intends to set a vision that will help chart a course through uncertain times, while remaining flexible enough to adapt to changes that have not yet revealed themselves. Policies may need to be revised over the next couple of decades, but the DOSP's equity framework and goals for culture keeping, access and equitable economic opportunity will help guide those changes.

### Goal 01: Economic Opportunity

*Create opportunities for economic growth and financial security for all Oaklanders.*

### Goal 02: Housing & Homelessness

*Ensure sufficient housing is built and retained to meet the varied needs of current and future residents.*

### Goal 03: Mobility

*Make downtown streets comfortable, safe, and inviting connections to the rest of the city so that everyone has efficient and reliable access to downtown's jobs and services.*

### Goal 04: Culture Keeping

*Encourage diverse voices and forms of expression to flourish.*

### Goal 05: Community Health & Sustainability

*Provide vibrant public spaces and a healthy built, natural, and social environment that improve the quality of life downtown today and for generations to come.*

### Goal 06: Land Use

*Develop downtown to meet community needs and preserve Oakland's unique character.*

### Goal 07: Implementation & Engagement

*Partner with community stakeholders and institutions to implement and realize the Plan's many goals, outcomes, and supportive policies.*

## Vision, Goals & Policies

The following section outlines the vision and goals, and by topic the central ideas, outcomes, strategies, policies and guidance designed to implement these goals. The details of each policy are found in their respective chapters of the DOSP. The specific action steps required to implement them, along with a summary of the lead and responsible agencies, potential funding sources and implementation timelines, are found in the Implementation Matrix of the DOSP (pages 298-421 of the DOSP).

### VISION

The Plan's overall vision for the future was developed over several years of hearing from Oaklanders:

*Downtown Oakland serves as the setting for a remarkable array of lived experiences. It is both home and gathering space to people of all different income levels, races, cultures, and ethnicities. It supports a wide spectrum of community assets, serving not only local residents, but also visitors and workers from around Oakland, the Bay Area, and the globe. Its economy drives social innovation while reflecting the cultures, political movements, and people who are its heritage and future.*

*Downtown Oakland is a dynamic regional hub of culture, ideas, employment, housing, and transit that welcomes our entire community. Oaklanders across all ages and cultures have access to a network of service providers, activities, mentorship, and job training that prepares them to participate in the creativity and prosperity being generated downtown. Growth is accompanied by bold strategies to protect vulnerable community members, businesses, and cultural organizations from displacement and to afford them opportunities for expansion and enhancement. Investment around transit stations and their vicinities creates active gateways into downtown and out to Oakland's communities. Safe and reliable transit increases access to downtown's jobs, services, culture, and entertainment options from throughout Oakland and the region. Landscaped and specially treated connections provide an integrated system of walking and biking paths through downtown that link cultural districts and connect people to the Lake Merritt and Estuary waterfronts and to surrounding neighborhoods and districts. Downtown is a leader in innovative resilience and adaptation around social, climate, and economic change.*

The vision for downtown's neighborhoods is found on pages 55-57 of the DOSP.
