Response

I like how there is a dog playing area, fitness area for kids who might need to get in shape

Because you can exercise and also it's fun and you can play with your friends hang out and enjoy. There is also a big area. Fitness too.

because I think most kids are afraid of dogs

It offers several areas for children to play and a dog area

We need a closed place for dogs.

We get both. Why can't the crossfit area be bigger?

More places to play and lots of services

because it has more fun games

I love the structure of it

I love fitness, this promotes a very healthy lifestyle.

Including teenagers 13+ for the park is better than because park is the place for family to greeting or party. There should be place has activities for all range of ages

Dog park, bigger park, slide built in & rock climb up

I like this option because there is more community engagements.

It's more organized and nicer

It's my favorite because there's no dog park and a bigger exercise area

More options

I like how they are adding a tree so the kids can have shade.

I like this option better because I feel like it's a more practical option.

Prefer more active / gym area than space just for dogs

I like the way the layout has been organized and that it has a designed dog area. Also the nature exploration zone spreading around the playgrounds and that it has a sensory play area for younger children (2-5).

Option a

dog park, more separate picnic area can have different birthday parties for people, both CrossFit and dog park,

I like it a lot because of the dog area, and how it's far from the children's playground. I also like that there is more nature exploration.

More nature exploration zone space and tables near dog park are separate from the playground so adults can stay there instead of entering the children space.

the picnic tables

Response

The play structure seems more secure with the nature exploration zone surrounding it. I also like how there's picnic tables that are further away from the play structure because it allows those with no children to stay over there to do whatever they want.

The dog park and the science environmental park for the kids

Option A is my favorite option because the dog park and the big slide.

The organization behind the sections in Option A seem cleaner and more efficient. I also fee that a dog park would get more use than a crossfit area.

It just looks better that's it

We don't need a dog park, there are too many dog owners in the neighborhood with aggressive or reactive dogs that would cause trouble for all dog owners, and for kids close by. The space is better utilized for the crossfit area, exercise equipment or anything else.

I like both of them as well they both good

a lot of people use the playground for fitness so it would be a great idea to have a fitness area

I think option A my favorite because I like the dog park.

Theres picnic tables all over the park rather than one area

I like the idea of a day park and having a fitness area as well.

There are many dog owners in this area that would love to have a dog park

I think the positioning of where the play areas are gonna be makes sense. For example the play area for the smaller kids being more in the middle

Because I love the dog park ideas

I feel like having a space for kids 13 is important for a park

I like this one because there's a dog park and a cross fit area. It has both elements and everything is more circular and together rather than broken in pieces and around.

I like this options because of how much it provides not like option B

My favorite option is B because it has a CrossFit areas for teens

More recreational space

Because I belive the crossfit area will be a amazing addition to our park.

The design looks better for the community to travel around in

i like it more because it has a nature exploration zone

The colors really stick out to me, I think it would match the scenery around the park

I have no idea

There's gonna be a bigger playground for the kids.

Response
B because i dont like dog park
More space more activity
This option allows individuals to work out and improve their physical health.
i like option B as there's picnic tables and a crossfit area.
B is my favorite option because it allows for inclusive & active play as well as areas for people to decompress. I think that it will also create a more welcoming space for the community.
b because it looks bigger not just that just more space for activity's and sports
Work out area.

Response
Community garden, native plant sections, education and informational signage. I saw in the children's section the idea for retreats and thought that would be I saw at an art museum once a paracord netting around the base of a tree it was very colorful seating
I want to add like additional for playing and restoring things to their orderly functions, such as a net being on the rim

Response

Maybe expand it making more space for people to hang out. Making a barbecue place. Texture too.

I feel like children will get lost in the nature exploration zone.

Bigger wellness area. Why make it so small? Can fit doggy area plus just as big cross fit area.

nope

Maybe add fountains, security guards to protect kids.

Nope.

None

Fit in more outdoor exercise, need zip line, add a place outside playground for birthday parties and maybe bbq, spinning net climber like at frog park in rockridge

I would not change anything.

No

Yes I would add more picnic tables

More pathways

I would want them to have more tables.

I like the layout, I wouldn't change anything.

I would like a fence around the sensory play area to keep younger children safe inside and maybe a sandbox.

More pathways for option a

Increase fitness area, conjoint two separate little area together, a library/ reading area with little library where people can exchange and read books

I do wish that it had more pathway options that connect to the over all Children's area but that's it.

Allowing for the amphitheater steps to be murals instead of wood as described in option A.

the play structure should be less colorful and less complicated and should always have swings.. always keep swings and no border at all. no border at all no need to be separated

I like the idea of artists coming together to do murals on the amphitheater seats.

I would change the tree spot so it's still alot of nature shown.

I would still use thte idea for the tree in the middle of the park for Option B, just done with the rest of the design with Option A.

Maybe try to keep something for teens I don't think teenagers only want the fitness aspect it seems like option a tries to accommodate dogs more than teens

Would rather keep picnic tables that appear in option A

No

Response

no

Add trash bags and cleaning supplies

I dont like the border around the park

It should have a doggy poop bag and trash can thing because I don't wanna see poop everywhere.

Maybe move the play area for the ages 2-5 in the top of the play area for better safety reasons away from the streets

Maybe have a box filled with poop bags in the dog park so the owners can keep the dog park clean

Add more picnic tables all around the park, i been watched to sit at the park but it's always been used uo by someone

Possibly expand on the fitness area. Also make the slide not out of metal because it gets extremely hot during summer.

i agree with everything

Nothing

Nothing at the moment

No

add crossfit

I would add the dog play area

I would add more swings cause there really the best part of the park

Response
I like the idea that the nature play area can be for all ages to enjoy the seating should be designed that emphasizes the natural environment of Oakland and allows for different ages to enjoy the park. I like the plant tunnel. Move the nature area
I expect a lot of plantation and maybe some descriptive signs of plants there
Making more spaces to hop and jump around.
calm children
Hobbit hills.
a garden filled with flowers, for example like tulips, roses, daisies where people can take pictures or come walk to see the flowers and at night it can luminate
I hope kids can connect more with nature while they have fun playing.
Nice gardens
Hobbit world - like the mini chairs carved out of wood, maybe a mosaic with local plants & wildlife and educational graphics with the names and info
I envision more gardening experiences.
Great
I envision the third picture where the girls in pink are walking on the tree trunks
I like picture number 4 because it looks like a place i would like to sit.
I would like to see garden activities for the children, and rock climbing.
Grassy mounds, big boulders, little maze

Response

Yes

Tree trunks, barks, water, sand

I can see safe plants especially because kids like to touch and taste plants. And learning about their environment in fun ways.

Places for kids to climb on tree stumps and trunks, creek-like water features.

places to sit and shade but not too complicated just a nice chill spot

maybe planting sensory plants.

A little more picnic tables around the basketball place or benches to sit down

I envision a lot of logs and rocks

The grass hills

I'm not sure

nature trees grass plants etc

Like a beautiful garden scenery and maybe a water fountain with it too

I like the grassy hills

A place to chill lay down and either have a picnic or just something nice and calm

Maybe add another garden for the community

A garden

Lost of non damaged plants

Cool rocks and have the opportunities to color it and make it a cool and peaceful place for everybody

Bottom right pretty much

A nice view of nature for the kids to enjoy

butterfly garden

Flowers and plants

Flowers and tree's all around the place like a actual forest

A small fake grass area to run around.

nature

Nice views smell and plants

the second top image to the right.

Plants, flowers, flat grassland area.

plants and things for kids to feel as if they are helping the land

Response

Natural flowers and plants

Response
They add more additional stuff
It's bigger and cleaner and it's expanded making people enjoying it.
volleyball
Bathrooms

Response

it had better fields and like a flower garden place for walks or picnics

It clean and a comfortable place for everyone

It was cleaner

More safety and more clean

It was well kept and not broken, had a working bathroom

more spaces, and more games for children.

I would used the San Antonio park more if it had a nice playground to play in and not broken. If there's were picnic tables because my family likes to go buy food and sit at the park and eat while my children play.

I would use San Antonio Park more if they fixed the park better.

There was more playground area, more events.

There were more and better play structures / swings and there were more kids

The renovations and if it becomes more inclusive for all people

Safety

Enclosed play area, separate people drinking

It had an area specifically for dogs.

The play structures were redone and more safe picnic areas.

kept the swings no border at all. if there was more to do we do have a very simplistic structure

There was more security and just a cleaner area.

If the environment around was more friendly and safe

It wasn't here

If it tried to do something for teens

There was fitness equipment for adults

Nothing

If I lived around here

If it was more interactive I guess. Or more easy to play sports.

It was beautifully decorated

The area that surrounds it is dangerous at some points

It has turf for soccer

There wasn't crackheads, it feels like I have to keep a eye over my shoulder

Response
It were cleaner, had bathrooms, and better safety.
If most of the homeless people can control their trash and throw it where it should go.
If it was More clean
I had the time to
If it looked better for the community and kids to play at and more safer
I would use the san antonio park playground if they had more safety and just clean environment
If it's closer to me
I was younger
more people here
It was more spacious
i had more time
It was more welcoming.
if it was more of my age range
There was a workout area.

My idea is that the theme of the play equipment will be a tree or tree houses. We have beautiful oak trees and redwoods in the park and it would be good to emphasize this. I also liked the idea of have Ohlone words as well as things written in the different languages of the community that lives in the neighborhood. I also have an idea that the theme of the artwork can be roots to honor all of the histories of the park as well as people who have put so much energy in helping this community -
NA
It's pretty good.
make a flower garden or walk way
Nope, hopefully there will be funding!!!
This park should have a large outdoor amphitheater for community performances (utilizing the terrain, also in a way honoring the history of the rodeos they used to have at the park) and a place for families to have birthday parties.
No
Can we also add benches

thank you for caring about our city and community.
No
I just want the park to stay clean and safe.
There should be trash/compost/recycle bins around the park to reduce trash from the floor.

Please fix the bathrooms, and remove people that smoke don't just put uo signs that say no smoking actually do something about it and get rid of the crack heads I feel like if I were a kid I would be scared of those types of people I wouldn't even want to be at the park anymore. Thank you.

Nothing to add but the community is great.
there wasn't a question about the crossfit, but I like the equipment that is at the Lake Chabot fitness area. Finally, I am a dog owner and am against adding a dog park. Even with my dog being leashed, he as gotten almost attacked several times when we walk around the park. Many vets and dog advocates are against dog parks because oftentimes carry diseases and dogs get into fights because dogs are often not trained well. I'm very concerned that this will encourage more off leash dogs as owners may not leash them as they enter and exit the dog park and that dogs may run out and enter the playground. This already happens now in the park when owners bring their dogs into the tennis courts. If we need a dog park, it can be on the green space on 14th which is separate and would make dog owners more mindful of entering and exiting the park with their dogs as well as help activate that corridor - I know Philomena wants to increase foot traffic to their restaurant.
